Q2. Before the 2015 General Election, all parties committed to getting the UK's public finances under control. When making decisions in government about how to do so - such as where to cut public spending or make changes to tax rates - politicians often have to make difficult choices regarding the best course of action. Thinking about how politicians make those decisions, to what extent do you agree or disagree with the following statements?

Base: All respondents

Q2. Before the 2015 General Election, all parties committed to getting the UK's public finances under control. When making decisions in government about how to do so - such as where to cut public spending or make changes to tax rates - politicians often have to make difficult choices regarding the best course of action. Thinking about how politicians make those decisions, to what extent do you agree or disagree with the following statements?

Base: All respondents

It is important to me that when making difficult decisions about spending politicians take their time to get the facts right

Q3. In government, politicians often have to make difficult decisions about new infrastructure projects such as new railway lines, housing developments or airports, especially when local people oppose those projects. Thinking about how politicians make those decisions, to what extent do you agree or disagree with the following statements?

Base: All respondents

It is important to me that when making difficult decisions politicians demonstrate that the decision is based on objective evidence

Table 16

Q3. In government, politicians often have to make difficult decisions about new infrastructure projects such as new railway lines, housing developments or airports, especially when local people oppose those projects. Thinking about how politicians make those decisions, to what extent do you agree or disagree with the following statements?

Base: All respondents

Politicians shouldn't be in charge of making decisions about projects - it should be left to the experts

Q5. Some public services, such as help for people leaving prison, care home management, and waste collections, are partly delivered by private sector companies or charities rather than directly by the government. Thinking about the public services that are contracted out to private companies/ organisations, when something goes wrong who do you feel ...?

Base: All respondents
