Table 14

**Q12. Some people have said that if all legal cigarettes in the UK are required to be sold in standardized packs that there could be some negative side-effects, although other people dispute this. More specifically please say whether you think plain packaging will cause the following to happen...?**

**Base: All respondents**

	Side-Effects						
	Make it easier to produce/sell counterfeit cigarettes because all packs will look the same	Lead to an increase in the black market cigarettes where smuggled branded packs will be available	Result in people bringing back more branded packs from their travels abroad	Cause kids to turn to the black market, where they can access cheap, branded packs	Result in Government losing more tax revenue to the black market	Lessen the impact of existing tobacco laws and regulations, as more cigarettes are sold on the black market	Increase the burden on police and other enforcement groups as black market sales go up
