Q.6 We're interested in getting a sense of how highly you rate various politicians. Please rate the following on a scale of 0-100, where 0 means you have a very negative view of them and 100 means you have a very positive view of them. If you have never really heard of one them, or don't know enough to have a view, then please say so?

Q.15 As you are no doubt aware, the Labour Party is in the process of electing a new leader to succeed Gordon Brown, who stood down after Labour's defeat in the general election. Regardless of which party you would vote for, please say if you think that each of the following would make you more or less likely to vote Labour in the future - or if they would make no difference. If you have never really heard of them, or don't know enough to have a view, then please say so?

Q.15 As you are no doubt aware, the Labour Party is in the process of electing a new leader to succeed Gordon Brown, who stood down after Labour's defeat in the general election. Regardless of which party you would vote for, please say if you think that each of the following would make you more or less likely to vote Labour in the future - or if they would make no difference. If you have never really heard of them, or don't know enough to have a view, then please say so?

Q.15 As you are no doubt aware, the Labour Party is in the process of electing a new leader to succeed Gordon Brown, who stood down after Labour's defeat in the general election. Regardless of which party you would vote for, please say if you think that each of the following would make you more or less likely to vote Labour in the future - or if they would make no difference. If you have never really heard of them, or don't know enough to have a view, then please say so?

Andy Burnham
